What this report covers

1 Scope 2 Organization and activity ordering 3 Dataset summary 4 Section index §5-§34 Conversation sections ⚑ Limitations

Scope note - The #dodgers and OGS[U+1F91E][U+1F91E] group conversations have been removed from this version of the report because they contain no communication relevant to the July 4, 2026 target date. Their records are not reproduced below.

1 Scope

This report presents the reconstructed Snapchat conversation_message timeline organized into one section per conversation. It reproduces all 2,359 records in the included conversation set: 29 group conversations and 150 one-to-one threads consolidated into Direct Messages. The #dodgers and OGS[U+1F91E][U+1F91E] groups remain excluded under the retained relevance scope. No other conversation is removed. This report is a demonstrative aid and does not replace examination of the underlying artifacts.

Source data

Snapchat_July4_to_End_2026_All_Messages_Attributed.csv - 3,113 source rows; 24 sent / 2,335 received in this report; timestamps in CDT (America/Chicago); sender identity joined from primary.docobjects to arroyo.db conversation_message.sender_id. This report reproduces 2,359 rows.

2 How this report is organized

- One section per group conversation, ordered by record volume. All 150 one-to-one conversations are consolidated into a single final section titled Direct Messages.
- Each group section opens with its participant roster - display name, Snapchat username, legacy username where it differs, sender UUID and observed message count.
- Within each section, records run in activity date order as defined below.

Activity ordering - viewed, opened or sent

Each record is placed on the timeline by the date of the local user's interaction with it, not solely by the date the message was created:

- SENT - a record transmitted by the local account. Ordered by the message's stored creation/send timestamp. (24 records.)
- OPENED - a received record containing a non-zero read_timestamp. These records are ordered by that timestamp rather than by the message's stored creation timestamp. In a group conversation, the read_timestamp does not by itself establish that [redacted] or the local account was the participant who viewed the message at that time. (147 records.)
- RECEIVED - a received record with no surviving read_timestamp. These records are ordered by the stored creation_timestamp. The absence of a read timestamp does not establish that the message was never viewed; it means only that no read timestamp is present in the examined database.

> Key idea - The Record timestamp column shows the underlying stored creation_timestamp whenever it differs from the activity timestamp; an em dash means the two are identical. This makes every opened record immediately visible. 147 of the 2,359 records carry a different activity timestamp under this ordering rule.

Participant rosters - how membership was determined

> Important - Snapchat's conversation_message table records the sender of each message; it does not carry a roster of conversation members. Each roster in this report is therefore derived by the examiner from observed sending activity: every distinct sender UUID appearing in that conversation, plus the local account. This is a floor, not a complete membership list - a participant who was present but never sent a message in the covered period [redacted] not appear, and a participant who left or joined mid-period cannot be distinguished from one present throughout. Rosters should not be presented as authoritative Snapchat group membership.

234	RECEIVED 07/06/2026 12:24:29.982 PM	—	[redacted]	I didn't want to type this because I don't want it to be real seriously. I have been praying nonstop begging God to bring you home safely. For some reason no matter what people post or say I still just don't want to believe it until it's confirmed. I have so so much guilt in my heart I wish I would've gotten over the awkwardness and just talked to you every time I've seen you since we ended things. The truth is it's because I do still care and no matter what you were a huge part in my life and will always always have a special place. Everyone remembers their first kiss and I'm going to tell my kids that it was you and everything and I don't regret a thing. I still have faith, I still pray you are going to come home and open this and your family sees you again. I can't stop looking through our saved chats and all the pictures and memories I have with you. I drove to ocean springs watching the beach all day yesterday just praying for a miracle you were going to make it to shore and I content_type=1	Viewed: No · Saved: Yes rowid=513125 cmid 320250 · smid 19863

			[redacted]	would see you. I pray more than anything you are still out there safe. I really want to talk to you again. You are truly such a sweet guy and I was so lucky to know you and have had those memories with you. I still don't believe I still think you are going to text back I truly do. I can't stop thinking what would've happened if I would've went to avas and went on the boat like I was supposed to. I feel like we would've talked the whole time and who knows what then. I was even at home Friday and Saturday and I was stalking your location because I wanted to see if you were going to avas, I actually lowkey always stalked ur location and wondered if you would be places I was going. I would pretend like I didn't want you to be but I did. I know you said to [redacted] at spring break you wished that I did care you were there, I did. I'm so so sorry for making you think otherwise, it's my fault. I will be praying for your family so much, I'm lucky I got to meet your parents and your little

302	RECEIVED 07/08/2026 11:53:28.833 PM	—	[redacted]	Hey Nolan. I been wanting to talk to you and text you but I've been fighting in my head whether or not for a few reasons, 1 I just simply don't believe it and don't want to but two because I just feel for your family so much and my heart is with them and I don't want to upset them if they are seeing your phone buzzing but someone said maybe it is nice to see how many people loved you and their son. First time I texted you I really really truly had every ounce of hope you would be okay, I know your okay and at peace not hurting but it's just hard , I know how much you loved God and I loved that about you, it was one of the things my dad respected most too was when he saw you pray before you ate when they first met you at dinner, so I'm trying to find comfort in that I know you are with him but it's so hard. I truly haven't been able to process this and I just miss you so so much. I've texted [redacted] and [redacted] and some others. I know how much you loved them and you loved them, content_type=1	Viewed: No · Saved: Yes rowid=513126 cmid 321495 · smid 19864
			[redacted]	gosh I won't ever forget us walking out and then already knowing we had finally kissed [U+1F923] I think I'm at the point where I'm just numb. I feel like I'm talking with ur friends and getting inside scoop on what ur saying and then we are going to ft again just like before. Rven when you srent ohysically here you are still bringing a smile to my face and making me laugh when i talk to my mom and sister about our memories and how awkward and nervous we both were eith eachother the first few times. What is eating me alive is i jsut can't help but think what would've happened if i went to avas and on the boat like i was supposed to, would we have talked and nothing wouldve happened? Idk. [redacted] told me that the day before, you brought up my name randomly and said you missed me. That brings me comfort to knoe you missed me just kike I was missing you but it also makes me mourn you even more bc i think of the things that couldve been and what was coming. I truly did believe and hope we	
			[redacted]	would find iur way back together even if it was just as friends , thats why i snapped you randomly, and im just thinking fairley telling me that you told her when u saw her i snapped u again you were at the movies and jumped and screamed when you saw and [redacted] said everyone was looking at the movies. I know hiw much you cared i just hate myself for ever making you feel sorry and i wonder if you knew how much i still thiught about you. I havent kissed anyone since you, you are still my only kiss and i

302	RECEIVED 07/08/2026 11:53:28.833 PM	—	[redacted]	Hey Nolan. I been wanting to talk to you and text you but I've been fighting in my head whether or not for a few reasons, 1 I just simply don't believe it and don't want to but two because I just feel for your family so much and my heart is with them and I don't want to upset them if they are seeing your phone buzzing but someone said maybe it is nice to see how many people loved you and their son. First time I texted you I really really truly had every ounce of hope you would be okay, I know your okay and at peace not hurting but it's just hard , I know how much you loved God and I loved that about you, it was one of the things my dad respected most too was when he saw you pray before you ate when they first met you at dinner, so I'm trying to find comfort in that I know you are with him but it's so hard. I truly haven't been able to process this and I just miss you so so much. I've texted [redacted] and [redacted] and some others. I know how much you loved them and you loved them, content_type=1	Viewed: No · Saved: Yes rowid=513126 cmid 321495 · smid 19864
			[redacted]	gosh I won't ever forget us walking out and then already knowing we had finally kissed [U+1F923] I think I'm at the point where I'm just numb. I feel like I'm talking with ur friends and getting inside scoop on what ur saying and then we are going to ft again just like before. Rven when you srent ohysically here you are still bringing a smile to my face and making me laugh when i talk to my mom and sister about our memories and how awkward and nervous we both were eith eachother the first few times. What is eating me alive is i jsut can't help but think what would've happened if i went to avas and on the boat like i was supposed to, would we have talked and nothing wouldve happened? Idk. [redacted] told me that the day before, you brought up my name randomly and said you missed me. That brings me comfort to knoe you missed me just kike I was missing you but it also makes me mourn you even more bc i think of the things that couldve been and what was coming. I truly did believe and hope we	
			[redacted]	would find iur way back together even if it was just as friends , thats why i snapped you randomly, and im just thinking fairley telling me that you told her when u saw her i snapped u again you were at the movies and jumped and screamed when you saw and [redacted] said everyone was looking at the movies. I know hiw much you cared i just hate myself for ever making you feel sorry and i wonder if you knew how much i still thiught about you. I havent kissed anyone since you, you are still my only kiss and i will always treasure that, even before i was going to. I was too nervous but with you i got over it and you respected me, snd understood and i became so comfortsbke with you. I just went to get my old phone fixed today so i could get thise tiktok drafts off of it of us making gingerbread hosue and talking, it's still stuck in time i still had a snap from you and had to play yiu back on imessage. I am re reading iur tiktoks dms and im so sorry for everything truly, none of it matters

314	RECEIVED 07/09/2026 09:01:39.583 PM	—	[redacted]	Hey Nolan, I Had to bring my old phone back to try and get those videos on that phone but it'll take 2-3 weeks to get them but it's worth it. I will always treasure them. I've made a TikTok about you and I keep rewatching it, it's making me sad but it's almost like I get caught up in the moment and I just am focused on you and I feel everything I felt when I was actually in those moments in those photos and videos with you. I'm having trouble understanding this still I genuinely don't think my brain is letting me process it, it hurts too much. I am praying for answers soon for your family and friends. I am sorry I realized too late. I can't help but think okay yes God has a plan for us all, but just like God gave us the gift of a hand but created it with intended purpose to use it for good, he also gave us the gift of free will to use it for good or for bad and some people choose bad, that wasn't Gods plan for them to use his gift for bad, so I can't help but makes me think if his content_type=1	Viewed: No · Saved: Yes rowid=513127 cmid 321496 · smid 19865
			[redacted]	plan was you living out your life and you have the most beautiful life and our story together continued and we had more in store, you especially had more in store for yourself, but in terms of us I always truly thought we would find our way back. Just like you said in one of your messages to me, that in Gods timing it will happen for us to be together, and im like what if that was his plan and whatever happened out there -Lord we pray for answers- just interfered. Idk ik God has all the answers and you would say to trust in him so I will. I know it's soon and these emotions are complicated but I just can't stop thinking of that even when I didn't know it, you were apart of my everyday life and idk what to do now. When I would get ready for the day and put makeup on I would think in my head okay now I can snap him back today because I feel pretty to, or when I'm falling asleep I would still think of our times together or think of made up scenarios where we would talk again to help me

I can't imagine myself feeling comfortable with someone again, you were the only person to want me for me in my whole 17 years and even now since I still haven't felt comfortable enough or felt the same abt someone to act on it and kiss them or talk to them, that wanted me for me. You knew how much it meant to me and I meant enough to you for you to want to wait for the right moment. I always struggled with that, before you , I never thought I would find someone who didn't just want a kiss, but instead was willing to wait until I was ready because it wasn't a kiss they only wanted, but it was me and a kiss and intimate things like that was only a way to be closer and to love me

I hate this I still don't think my mind is letting me process it. I'm seeing people blaming and pointing fingers at [redacted] now and it's making me so mad like that was your bestfriend you would always talk about him and you guys just were so funny. My mom was like I remember him when Nolan came to bring those flowers for you, he ran out the car with a big smile. I loved your special bond. I told my sister that you have been helping me still by wanting to be a better person and take care of myself more for you because I feel like your watching me and with me always, can't let you see ya girl looking funky. Idk I feel like this still isn't real but it'll hit me at random moments and I've just never felt hurt and pain like that my mind is so confused, then suddenly it's like my brain stops me from fully grasping what this means and what happened. I will. I know you aren't burden with pain or regret of anything anymore, I know you lived by putting God first before anything and now you are with him. Thank you again for being the first guy to show me I was capable to love someone and care for someone and be romantic and have those cringy awkward moments with someone, and for showing me that despite what my friends say sometimes, there is someone that loves me for me and wants all parts thru the good and the bad. I wish we had more time, I always will, I wish that my thoughts of us finding each other back again together would be given the chance to come true, but that won't change things I know, I know you are with me and I know now, if you didn't know it before , you

327	RECEIVED 07/11/2026 01:26:51.409 AM	—	[redacted]	Been thinking about this and Im trying to figure things out too. Just wish I could see and talk to you again. I hate this I still don't think my mind is letting me process it. I'm seeing people blaming and pointing fingers at [redacted] now and it's making me so mad like that was your bestfriend you would always talk about him and you guys just were so funny. My mom was like I remember him when Nolan came to bring those flowers for you, he ran out the car with a big smile. I loved your special bond. I told my sister that you have been helping me still by wanting to be a better person and take care of myself more for you because I feel like your watching me and with me always, can't let you see ya girl looking funky. Idk I feel like this still isn't real but it'll hit me at random moments and I've just never felt hurt and pain like that my mind is so confused, then suddenly it's like my brain stops me from fully grasping what this means and what happened. I will forever be thankful for God content_type=1	Viewed: No · Saved: Yes rowid=513128 cmid 321499 · smid 19868
			[redacted]	giving us the time we had together, even tho I'm still struggling to say yes this was his plan all along I can't believe in that, but I believe in God and I know you would say trust in him, he works in mysterious ways. I will. I know you aren't burden with pain or regret of anything anymore, I know you lived by putting God first before anything and now you are with him. Thank you again for being the first guy to show me I was capable to love someone and care for someone and be romantic and have those cringy awkward moments with someone, and for showing me that despite what my friends say sometimes, there is someone that loves me for me and wants all parts thru the good and the bad. I wish we had more time, I always will, I wish that my thoughts of us finding each other back again together would be given the chance to come true, but that won't change things I know, I know you are with me and I know now, if you didn't know it before , you know now how much I love and care about you. You

			[redacted]	are truly an amazing person with the most special heart. I still feel like this isn't real and I'm just like blocked or at the worst, ur still missing and soon ur going to see this and we will be better than ever, but not this. Will forever be your girl, I've only been listening to that song really because I just loved it when you called me "my girl" to your friends before we even were seriously anything but then when [redacted] would snap you a pic of me and you would say it, and when you put it on the two pictures of us, idk it's our song and it will always be to me. Forever forever your girl. Still continuously praying for your friends and your family so so much. They are so strong and I admire them so much for finding the strength to speak and fight for justice for you. You are so so loved always. Love you Nolan so much and miss you more than anything. 370	RECEIVED 07/23/2026 01:06:22.464 AM	—	[redacted]	I miss you so much Nolan I am sorry this happened I wish I was there. I haven't not thought of you, ur on my mind all the time and so is your family. I really am praying for them everyday. I know you can hear me when I talk to you but it still gives me a little comfort in texting you. There is so much I wish I could say and wish I would've done. I feel like we were just one text away or one conversation away from starting again. I am just numb with this and can't even. Ur funeral was Monday, I went, it was so hard i barely could go in at first. I know you know everything I've already said this all to you talking to you but. I miss you so much I wish this was all just one long horrible nightmare. I am so sorry. Captured from the source video. This is a visual reference, not the original searchable report.

35 Limitations

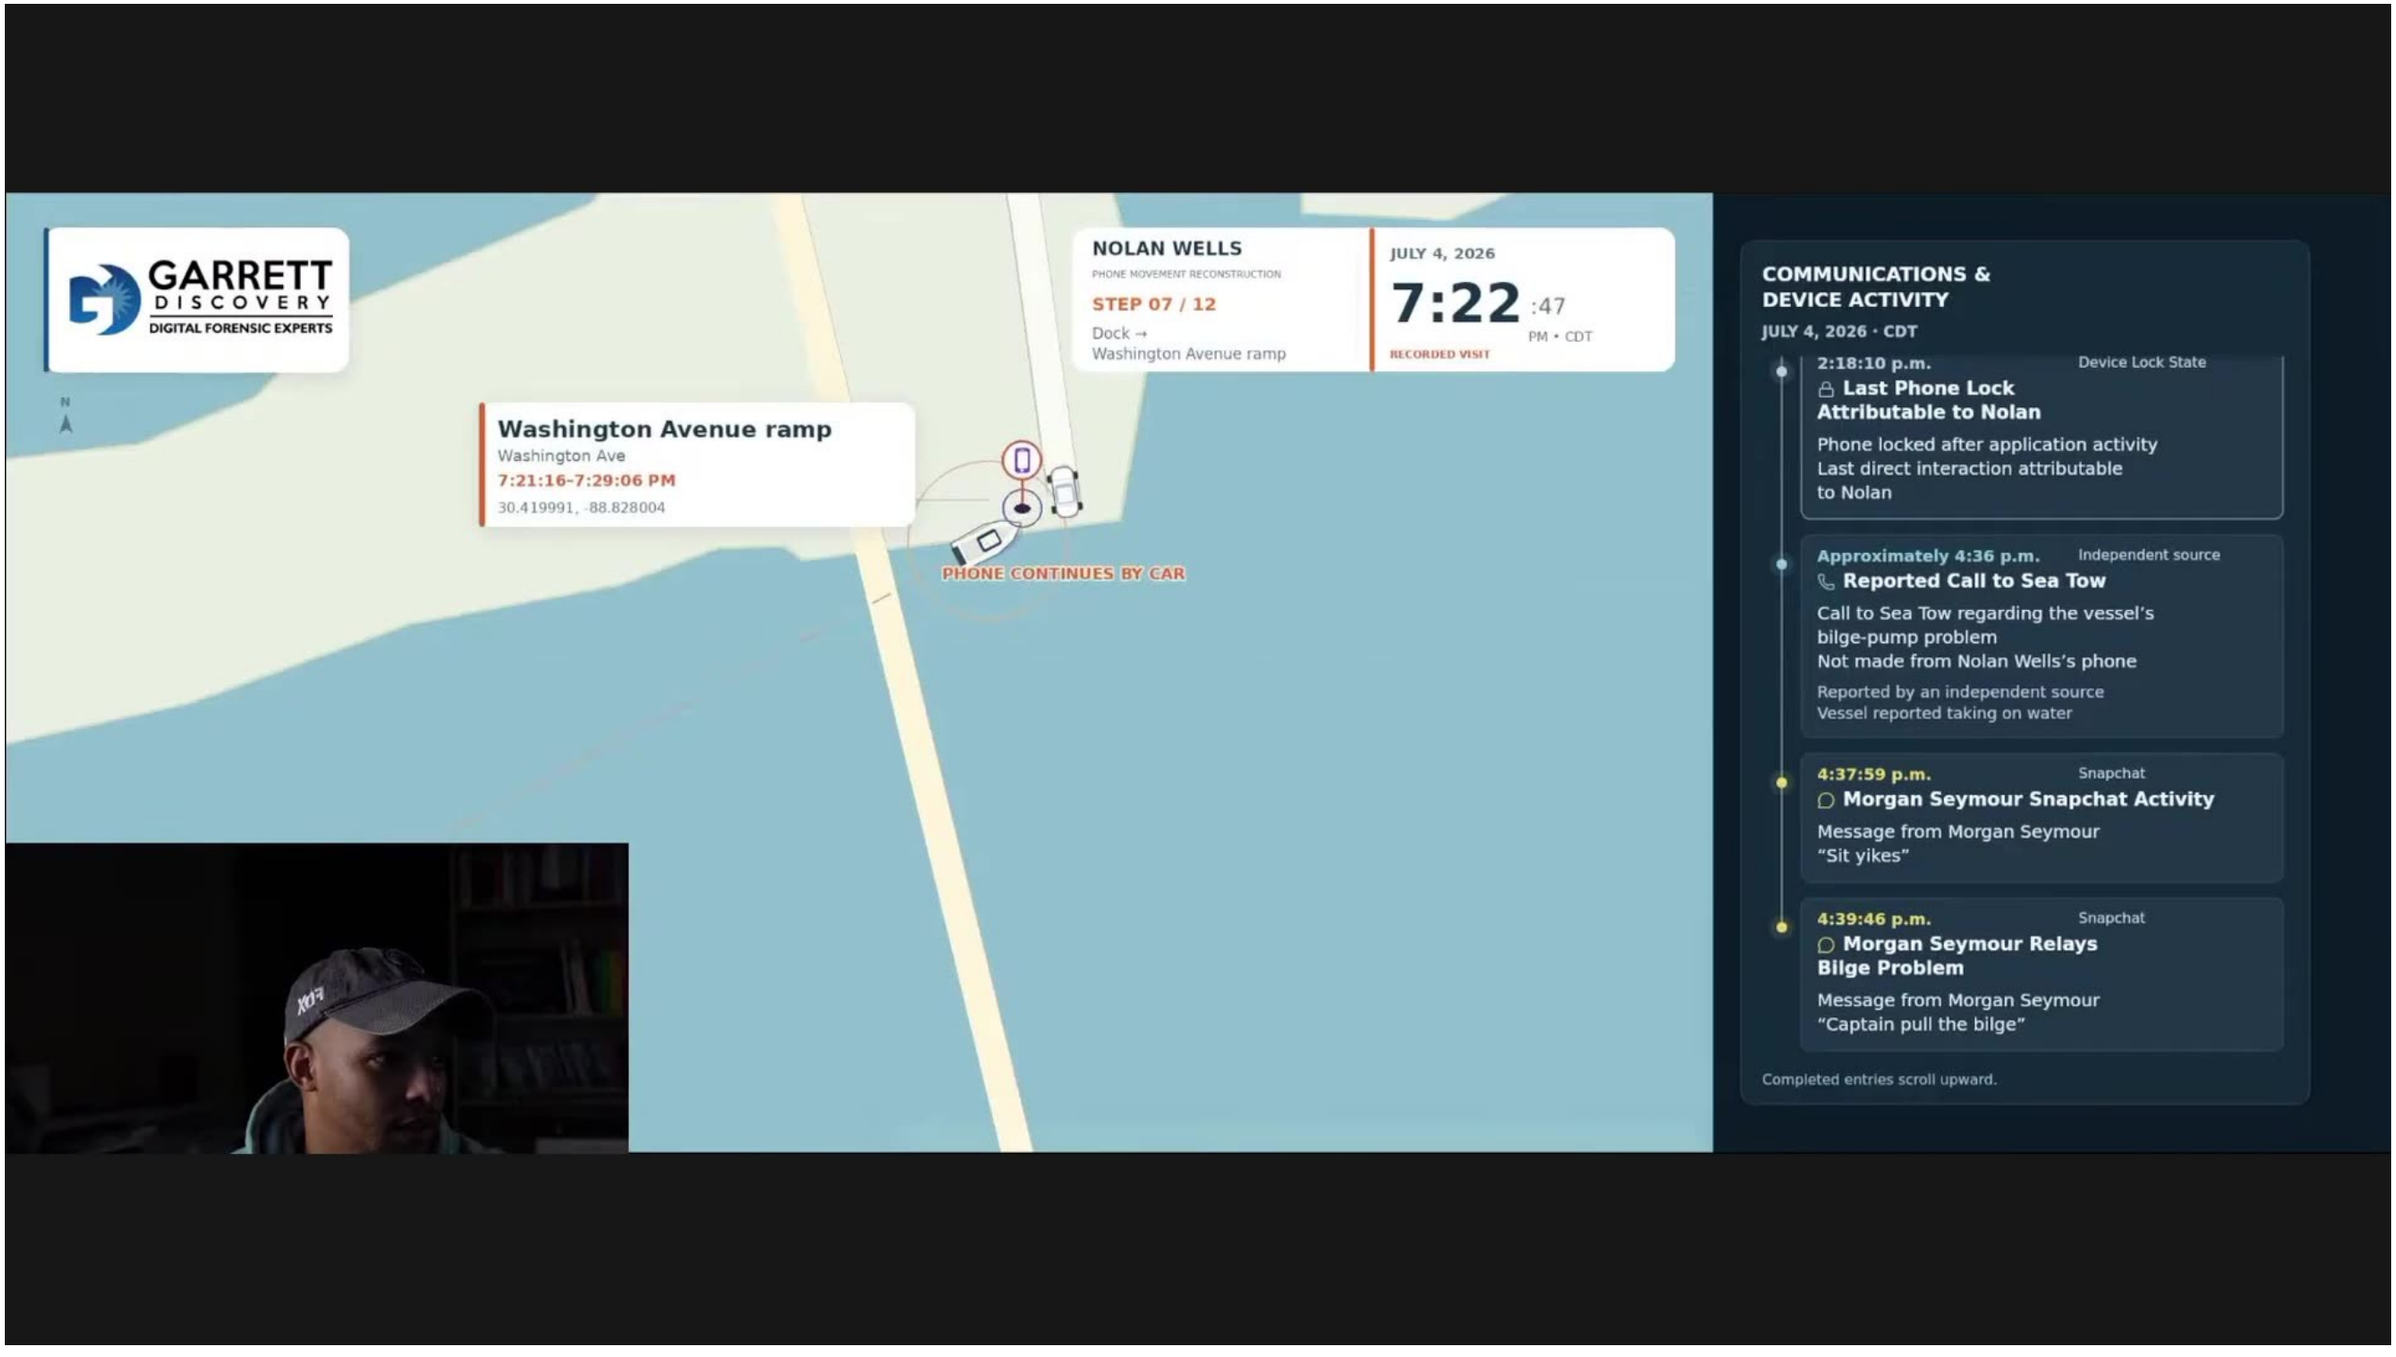

- Participant rosters are derived from observed sending activity, not from a stored membership table. They establish who sent messages in each conversation, not who was a member of it. Silent participants do not appear.
- All 208 distinct sender UUIDs appearing in the retained sections were resolved to a name or username in primary.docobjects. One direct thread contains only outbound records and therefore has no identifiable counterparty from the available conversation records; it is separately marked Unresolved - outbound only. This does not represent an unresolved sender UUID.
- The absence of an open/read timestamp does not establish that a message was never viewed. It establishes only that no read event survives in this database. Records without one are ordered by stored creation_timestamp by necessity.
- Read timestamps carry different meanings by direction: on a received record the timestamp reflects the local user opening the message; on a sent record it reflects the recipient opening it. The two are labeled distinctly in the State column and must not be conflated.
- The Saved flag shows a message existed in a saved state. In a group conversation this flag alone does not identify which participant performed the save.
- 4 records are marked recovered from the checkpointed pre-WAL state - present in the checkpointed database but absent from the current WAL-applied logical view. Their absence from the live view does not establish user deletion.
- Timestamps are reproduced in CDT (America/Chicago) as presented in the source data. No independent verification of device clock accuracy or timezone integrity was performed as part of this report.
- Where the PDF font does not contain a non-BMP emoji glyph, the exact Unicode code point is displayed in brackets, such as [U+1F607], rather than silently omitted.
